Indo German Endoscopy and Laproscopic Society

The Indo German Endo Laproscopic Society is a unique organisation and first of its kind which was formed between Minimally invasive surgeons of Trichy, Tamil Nadu, India and University Clinic of Freiburg.

This was initially mooted by the partnership which Velan Speciality Hospitals had with KLS Martin in bringing in the First Complete Modular Operating rooms, ICU's, Cath Labs and NICU's calling the center as MARWORLD Centre of Excellence, Hence with Mr Manfred Seeger from KLS Martin as the international co ordinator ,

Prof. Dr. Goran Majanovic from the University Hospitals of Freiburg and the team of General Surgery and Gastroenterology From Germany and the following members from Trichy, India we had formed the society on November 2019.

The Team from India were

Dr Zameer Pasha the Founder Chairman, Dr K. Govindaraj, Founder Secretary, Dr K. Rajavel, Founder Treasurer, and Founder EC Members comprising of Prof Dr Karunaharan, Dr Dharmarajan, Dr Jhonston, Dr Pragasam, Dr Lakshminarayanan, Dr Kaarthesan, Dr Parthasarathy, & Dr Ananda Kanan.

The primary motto of the society is to utilise the latest technology in the modular operative environment and share knowledge regarding minimally invasive surgery in the field of General Surgery, Gastroenterology, Urology, Obstetrics and Gynecology and ENT, Etc.,

Velan Speciality Hospitals, Engineering Colony, Subramaniyapuram, Trichy, Tamilnadu, India 620 020.

Indo German Endoscopy and Laproscopic Society

Live Surgical Demonstration of Laparoscopic Werthme's was well discussed and participated by both the audience. And the case was a challenging case which led to few useful challenges, The Procedure went on well and the patient did well in post op.

A Special mention has to be made by the team KLS Martin who is IGELS International Partner and Coordinator, they were the driving force behind this conference with their full support and co ordination in both Sharjah by their Dubai and German Team and in India with the expertise of utilising the NDS Conduct OR System by KLS Martin the Live surgical and CME transmission was possible seamless with 3 way audio and video integration along with display of multiple inputs into the system. It is fixed along with the entire modular operation rooms and its very helpful in High Quality Full HD transmission and Video conferencing at very simpler and affordable manner.

Message From the Presidents Desk!

IGELS conceived & created in Trichy along with our surgical brethren in Germany had our first successful meeting on 29th March '19 in Trichy with the help of Velan Hospital, Sharjah University & KLS Martin inc., The CME, interactive sessions, live surgical demonstrations & the quality of international transmissions were exemplary & impeccable! The faculty & large number of delegates in India & UAE were appreciative of the awesome quality of the Meet & the highly emulating ideal of care & share of surgical excellence! We the IGELS Members will continue to carry on our humane work with renewed dedication to serve the needy & the poor! We'll mentor our surgical trainees & Proctor our colleagues! With Love & Thanks Govindraj, Rajavel & all Founding Members of IGELS!

- Dr Zameer Pasha
- Founder President IGELS

Message From the Secretary Desk!

A novel concept mooted from trichy for interactive sessions across the globe has become a reality with the first IGELS meeting from trichy to sharjah university. Thanks to KLS Martin, Frieberg university, Velan hospital & Surgical society of trichy. IGELS is a conglomeration of all specialities who practice minimally invasive surgery & endoscopy. Looking forward to more live sessions from frieberg.

- Dr K. Govindaraj
- Founder Secretary IGELS

Message From the Secretary Desk!

It's a great opportunity for us from IGELS and Velan Speciality hospitals to have been able to conduct such a workshop which is a precedent on the education forum of surgical community between surgeons of trichy, Sharjah university and University of Freiburg. I would like to make a special mention to KLS Martin India and Global team who had taken this mantle from papers to reality and completely supported us all in. Also we would like to extend the same into all specialities of minimally invasive surgery where doing such conference will be a breeze with the existing setup in place with very negligible costs. Also I would like to mention the humbugs support which I receive from the TEAM IGELS with two global leaders heading us working with full support to the concept and also all the specialist involved behind the show from VELAN speciality, Sharjah university and university of Freiburg Germany without whom such a successful event is not possible.
